

Chapter 4. People as Nomadic Foragers: The Communal Wave

Chapter 4. E. Power Point Presentation

[Chapter 4 power point presentation](#)

I collected as many pictures of people living or have lived in the Communal Wave as possible. I find their way of life fascinating and such an interesting contrast to our own. I encourage you to have your students collect more pictures of people in this wave.

I have also included pictures of the !Kung in southwestern Africa. Tourists are able to visit their camps and many of their pictures I found posted on flickr and other sites.
